

PRO-TEK vs. LITE

SuperNOVA2 PRO-TEK | G3 PRO-TEK

- Chuck body nickel-plated, thus achieving a rust-resistant and hard-wearing surface which is also particularly suitable for turning wet (green) wood.
- **Spindle M33 x 3,5 with ASR-EUROLOCK.**
- **Jaws closing in intuitive clockwise direction.**
- **One-hand operation.**
- **Precise jaw slides with very good sliding properties and high wear resistance - a safety stop prevents the jaw slides from protruding beyond the chuck body.**
- Starhead screws with T-bar key.
- 50 mm „PRO-TEK“ jaws with dovetail on the outside and additional serration profile on the inside for optimum hold of the clamped workpiece.
- Woodworm screw included.
- NOVA cleaning cloth included.
- Delivered in an elegant case.
- 6 years warranty on spare parts.

SuperNOVA2 LITE | G3 LITE

- **Spindle M33 x 3,5 with ASR-EUROLOCK.**
- **Jaws closing in intuitive clockwise direction.**
- **One-hand operation.**
- **Precise jaw slides with very good sliding properties and high wear resistance - a safety stop prevents the jaw slides from protruding beyond the chuck body.**
- Sockethead screws with appropriate wrench.
- 50 mm jaws with dovetail outside and fixing ring inside.
- 2 years warranty on spare parts.
